

Benefit Enrollment Help

Business guidance for the Benefit Enrollment screen

Screen context	Value
Business entity	Benefit Enrollment
Dataverse logical name	maftagsc_benefitenrollment
Domain	Benefits
Ownership / sensitivity	User-owned personal HR record

Purpose

Records one Employee's selection or waiver of a Benefit Plan for a defined coverage period and contribution amount.

All names, dates, amounts, and identifiers in examples are fictional and intended for training.

Understanding Benefit Enrollment

Records one Employee's selection or waiver of a Benefit Plan for a defined coverage period and contribution amount.

Use this screen when

- Recording an open-enrollment election
- Recording an authorized waiver
- Starting replacement coverage after a life event
- Ending an existing coverage period

Do not use this screen to

- Do not edit the Benefit Plan to represent an Employee choice
- Do not overwrite an old Enrollment when coverage changes
- Do not store medical details or dependent personal data in free text

Contextual agent grounding

When entityName is "maftagsc_benefitenrollment", treat this document as the primary entity-specific source. Use it together with HR-Agent-Sidecar-Benefits-Administration-Process.pdf. Do not infer that planned Model-driven App automation, security roles, or the Copilot side pane are deployed until implementation is confirmed.

Who does what

Business role	Responsibility on this screen
Benefits administrator	Validates eligibility/evidence and records the Enrollment.
Employee	Makes the election through the approved enrollment channel.

Business field guide

Field	Business meaning	How to use it
Benefit Enrollment Name	Readable election identifier.	Recommended: Employee — Plan — Coverage Level.
Employee	Person receiving or waiving coverage.	Required.
Benefit Plan	Approved offering selected or waived.	Required.

Field	Business meaning	How to use it
Coverage Level	Employee Only, Employee and Spouse, Employee and Children, or Family.	Required.
Elected On	Date the Employee made the election.	Required.
Coverage Start	First date of coverage.	Required and within Plan effective dates.
Coverage End	Last date of coverage.	Set when ending/replacing coverage.
Employee Contribution	Employee cost for this election.	Use the approved contribution period.
Status Reason	Active, Waived, or Ended.	The approved base process requires no Manager approval.

Related business records

Related record	Relationship to this screen
Employee	Person making the election.
Benefit Plan	Offering and effective terms selected.

Worked example

The following fictional Benefit Enrollment record demonstrates a complete business scenario.

Field	Example value
Benefit Enrollment Name	Avery Chen — Contoso Choice Medical 2027 — Family
Employee	Avery Chen
Benefit Plan	Contoso Choice Medical 2027
Coverage Level	Family
Elected On	November 14, 2026
Coverage Start	January 1, 2027
Coverage End	Blank

Field	Example value
Employee Contribution	\$410.00 per month
Status Reason	Active

Questions users commonly ask

Question	Business answer
Does an Enrollment require Manager approval?	No. The approved base process records the election without Manager approval.
How do I change coverage level?	End the old Enrollment on the correct date and create a new Enrollment for replacement coverage.
What does Waived mean?	The Employee intentionally declined the applicable offering and required evidence exists in the approved location.

Data quality and privacy checks

- Confirm that the record belongs on the Benefit Enrollment screen and is not a duplicate or a different business concept.
- Use approved lookups and choice values instead of typing alternative labels into notes.
- Enter only the minimum personal or financial information required for the business process.
- Preserve status and historical records; do not silently overwrite completed business events.
- When escalating an issue, share the record URL/ID and field name—not unnecessary sensitive field contents.

Companion process documentation

Use this entity help together with: [HR-Agent-Sidecar-Benefits-Administration-Process.pdf](#). The process document explains sequencing, responsibilities, approvals, exceptions, and cross-entity effects.

Agent response boundary

What the contextual agent should do

Answer in business terms for a user currently viewing Benefit Enrollment. Explain field meaning, proper use, related records, validation, and the applicable business process. If a

question requires organization-specific policy, access rights, or confirmation that automation is deployed, state that limitation and direct the user to the appropriate HR or Power Platform owner.
