Understanding Expense Report

Groups an Employee’s itemized reimbursement expenses into one submission with a business purpose, total, Manager decision, and payment lifecycle.

Use this screen when

- Collecting related reimbursable transactions
- Submitting a complete package for Manager approval
- Recording approval, rejection, cancellation, or payment completion

Do not use this screen to

- Do not enter every transaction directly on the report header
- Do not submit before all Expense Lines and receipts are reconciled
- Do not mark Paid before confirmed reimbursement

Contextual agent grounding

When entityName is “maftagsc_expensereport”, treat this document as the primary entity-specific source. Use it together with HR-Agent-Sidecar-Expense-Reimbursement-Process.pdf. Do not infer that planned Model-driven App automation, security roles, or the Copilot side pane are deployed until implementation is confirmed.

Questions users commonly ask

Question	Business answer
What makes a report ready to submit?	Every line is complete, categories and receipts are valid, Business Purpose is specific, and Total Amount equals the sum of lines.
Can I approve my own report?	No. Use the approved alternate approver when the normal Manager relationship is unsuitable.
What is the difference between Approved and Paid?	Approved authorizes reimbursement; Paid confirms reimbursement was completed.

Data quality and privacy checks

- Confirm that the record belongs on the Expense Report screen and is not a duplicate or a different business concept.
- Use approved lookups and choice values instead of typing alternative labels into notes.
- Enter only the minimum personal or financial information required for the business process.
- Preserve status and historical records; do not silently overwrite completed business events.
- When escalating an issue, share the record URL/ID and field name—not unnecessary sensitive field contents.

Companion process documentation

Agent response boundary

What the contextual agent should do

Answer in business terms for a user currently viewing Expense Report. Explain field meaning, proper use, related records, validation, and the applicable business process. If a question

requires organization-specific policy, access rights, or confirmation that automation is deployed, state that limitation and direct the user to the appropriate HR or Power Platform owner.
