

Time Off Balance Help

Business guidance for the Time Off Balance screen

Screen context	Value
Business entity	Time Off Balance
Dataverse logical name	maftagsc_timeoffbalance
Domain	Time Off
Ownership / sensitivity	User-owned personal HR record

Purpose

Tracks allocated, pending, and used hours for one Employee, one Time Off Type, and one calendar year.

All names, dates, amounts, and identifiers in examples are fictional and intended for training.

Understanding Time Off Balance

Tracks allocated, pending, and used hours for one Employee, one Time Off Type, and one calendar year.

Use this screen when

- Establishing an annual leave allocation
- Onboarding an Employee mid-year
- Applying an authorized balance adjustment
- Reconciling request impacts

Do not use this screen to

- Do not use a Balance as a request
- Do not combine multiple Employees, Types, or years
- Do not manually change hours without authorized evidence or the approved automation

Contextual agent grounding

When entityName is “maftagsc_timeoffbalance”, treat this document as the primary entity-specific source. Use it together with HR-Agent-Sidecar-Time-Off-Process.pdf. Do not infer that planned Model-driven App automation, security roles, or the Copilot side pane are deployed until implementation is confirmed.

Who does what

Business role	Responsibility on this screen
HR administrator	Creates, adjusts, and reconciles balances.
Approved automation	Moves hours as requests are submitted, decided, or cancelled.
Employee/Manager	Views authorized balance information.

Business field guide

Field	Business meaning	How to use it
Time Off Balance Name	Readable identifier.	Recommended: Employee — Type — Year.
Employee	Person whose balance is tracked.	Required lookup.
Time Off Type	Leave category.	Required lookup.

Field	Business meaning	How to use it
Calendar Year	Year to which the balance applies.	Required whole year value.
Allocated Hours	Total authorized allocation.	Required; includes approved prorating/adjustments.
Pending Hours	Hours on Submitted requests awaiting final outcome.	Required; normally automation-maintained.
Used Hours	Hours consumed by Approved requests.	Required; normally automation-maintained.

Related business records

Related record	Relationship to this screen
Employee	Owner of the leave entitlement.
Time Off Type	Category of leave represented by the balance.
Time Off Requests	Submitted/approved requests change pending and used values.

Worked example

The following fictional Time Off Balance record demonstrates a complete business scenario.

Field	Example value
Time Off Balance Name	Avery Chen — Vacation — 2026
Employee	Avery Chen
Time Off Type	Vacation
Calendar Year	2026
Allocated Hours	120.00
Pending Hours	24.00
Used Hours	16.00
Available Hours	80.00 (120 – 24 – 16)

Questions users commonly ask

Question	Business answer
How is available time calculated?	Allocated Hours minus Pending Hours minus Used Hours.
Why are hours pending?	A Submitted request reserves hours while awaiting a decision.
Can two balances exist for the same Employee, Type, and year?	No in business terms. Search before create; duplicates are a data-quality incident.

Data quality and privacy checks

- Confirm that the record belongs on the Time Off Balance screen and is not a duplicate or a different business concept.
- Use approved lookups and choice values instead of typing alternative labels into notes.
- Enter only the minimum personal or financial information required for the business process.
- Preserve status and historical records; do not silently overwrite completed business events.
- When escalating an issue, share the record URL/ID and field name—not unnecessary sensitive field contents.

Companion process documentation

Use this entity help together with: [HR-Agent-Sidecar-Time-Off-Process.pdf](#). The process document explains sequencing, responsibilities, approvals, exceptions, and cross-entity effects.

Agent response boundary

What the contextual agent should do

Answer in business terms for a user currently viewing Time Off Balance. Explain field meaning, proper use, related records, validation, and the applicable business process. If a question requires organization-specific policy, access rights, or confirmation that automation is deployed, state that limitation and direct the user to the appropriate HR or Power Platform owner.
