Questions users commonly ask

Question	Business answer
What can happen after Submitted?	The request can be Approved, Rejected, or Cancelled according to policy.
What happens to the balance?	Submission increases Pending Hours; approval moves hours to Used; rejection/cancellation releases Pending Hours.
Can an approved request be edited?	Do not edit it silently. Use the governed cancellation/reversal process and preserve audit history.

Data quality and privacy checks

- Confirm that the record belongs on the Time Off Request screen and is not a duplicate or a different business concept.
- Use approved lookups and choice values instead of typing alternative labels into notes.
- Enter only the minimum personal or financial information required for the business process.
- Preserve status and historical records; do not silently overwrite completed business events.
- When escalating an issue, share the record URL/ID and field name—not unnecessary sensitive field contents.

What the contextual agent should do

Answer in business terms for a user currently viewing Time Off Request. Explain field meaning, proper use, related records, validation, and the applicable business process. If a question requires organization-specific policy, access rights, or confirmation that automation is deployed, state that limitation and direct the user to the appropriate HR or Power Platform owner.
